## PROFESSIONAL SUMMARY

Life Cycle Assessment (LCA) professional with 9+ years of experience leading cradle-to-grave studies, EPD development and carbon footprinting for packaging, construction and consumer goods clients.

## SKILLS

**LCA Software:** SimaPro, GaBi, OpenLCA, Ecoinvent database
**Standards:** ISO 14040/14044, ISO 14025, EN 15804, ISO 14067, GHG Protocol, PAS 2050
**Impact Assessment Methods:** ReCiPe, CML, TRACI
**Core Competencies:** EPD development, Carbon footprinting (Scope 1-3), Material flow analysis, Environmental auditing, Circular economy assessment
**Data and Tools:** Excel, Python basics, Power BI

## WORK EXPERIENCE

### Senior LCA Analyst | GreenAxis Sustainability Consulting | 2019 - Present

- Led 25+ cradle-to-grave LCA studies for packaging and construction clients using SimaPro.
- Developed and verified EPDs compliant with EN 15804 for 8 building material products.
- Conducted Scope 1-3 carbon footprinting, reducing client GHG estimates by 18% through data refinement.
- Performed environmental audits and ensured ISO 14044 compliance across projects.

### LCA Analyst | EcoMetrics Pvt. Ltd. | 2016 - 2019

- Built SimaPro models for consumer goods and maintained Ecoinvent database mappings.
- Assisted in environmental auditing and prepared sustainability reports for 12 clients.
- Supported circular economy assessments and material flow analysis.

## EDUCATION

**M.Tech, Environmental Engineering** | IIT Bombay | 2016
**B.E., Civil Engineering** | Pune University | 2014

## CERTIFICATIONS

ISO 14044 LCA Practitioner (2018) | GHG Protocol Corporate Accounting (2020)
