SENIOR LCA ANALYST

Arjun Jain

Senior LCA Analyst with 4 year(s) of experience supporting product and organisational sustainability assessments. Skilled in translating activity data into traceable environmental models, reviewing assumptions and communicating practical impact-reduction options.

candidate11@example.test | +91-555-010-011 | Sample City, India | Portfolio / LinkedIn: available on request
Target category: LCA **Experience:** 4 year(s) **Education:** M.Sc. Environmental Science — Western Institute of Environment Studies

CAREER SNAPSHOT

- Senior LCA Analyst | TerraMetric Sustainability
- Supported or delivered 12 product, process or site assessment workstreams from data request through reporting.
- Collected primary activity data from engineering, procurement and operations teams; checked units, completeness and representativeness.
- Developed or reviewed life-cycle models using relevant databases and impact methods; documented scope, boundaries and allocation choices.
- Prepared technical summaries, evidence logs and review notes for internal stakeholders and client discussions.

EDUCATION

- M.Sc. Environmental Science — Western Institute of Environment Studies

PROJECT EVIDENCE

- Manufacturing site carbon baseline
- Consolidated fuel, electricity, process and logistics data across production sites.
- Calculated emissions using documented factors and reconciled source records.
- Presented reduction opportunities covering energy, material yield and transport.

SKILLS & METHODS

- SimaPro
- ecoinvent
- GWP100
- CML / ReCiPe methods
- Scope 1, 2 and 3 emissions
- Sensitivity analysis
- Allocation
- Technical documentation

ADDITIONAL CONTRIBUTIONS

- Improved source-data traceability through a structured evidence register.
- Identified high-impact materials and tested practical reduction scenarios.
- Maintained model versions, assumptions, exclusions and limitations for technical review.
