Target category: UI/UX **Experience:** 2 year(s) **Education:** B.Tech. Information Technology — Institute of Climate & Resource Studies

CAREER SNAPSHOT

- Visual & UX Design Intern | Student Product Lab
- Translated a product brief into user goals, primary journeys and a prioritised screen list.
- Created low- and high-fidelity layouts in Figma using Auto Layout, reusable components and consistent spacing.
- Created a Framer prototype with responsive sections, clear calls to action and lightweight motion.
- Collected participant feedback, documented usability observations and iterated on the design.

EDUCATION

- B.Tech. Information Technology — Institute of Climate & Resource Studies

PROJECT EVIDENCE

- Non-profit information website
- Reviewed information architecture and grouped content around visitor goals.
- Designed responsive landing and programme pages and built a Framer prototype.
- Improved content hierarchy and CTA visibility after peer review.

SKILLS & METHODS

- High-fidelity UI
- Low-fidelity sketches
- Prototyping
- Visual hierarchy
- Typography
- Grid systems
- Responsive breakpoints
- Developer handoff

ADDITIONAL CONTRIBUTIONS

- Produced a consistent component library for key screens.
- Used feedback to simplify task completion and improve label clarity.
- Considered keyboard focus, contrast and readable type sizes during design review.
