Dev Sethi

LCA
2 year(s)

Sustainability Data Analyst
Sustainability Data Analyst with 2 year(s) of experience supporting product and organisational sustainability assessments. Skilled in translating activity data into traceable environmental models, reviewing assumptions and communicating practical impact-reduction options.

candidate09@example.test | +91-555-010-009 | Sample City, India | Portfolio / LinkedIn: available on request
Target category: LCA **Experience:** 2 year(s) **Education:** M.Sc. Sustainability Management — Riverbend University

CORE CAPABILITIES

- Life Cycle Assessment (ISO 14040/14044)
- SimaPro
- openLCA
- Life Cycle Inventory
- Impact assessment
- Carbon footprinting
- GHG Protocol
- Data quality review

PROJECT PORTFOLIO

- Packaging portfolio footprint study
- Built cradle-to-gate models for multiple packaging SKUs using supplier material and energy data.
- Reviewed allocation assumptions and tested recycled-content and transport scenarios.
- Prepared hotspot summaries to guide lower-impact material choices.

EXPERIENCE

- Sustainability Data Analyst | Earthwise Analytics
- Compiled bills of materials, energy records, transport distances and supplier declarations under senior guidance.
- Collected primary activity data from engineering, procurement and operations teams; checked units, completeness and representativeness.
- Developed or reviewed life-cycle models using relevant databases and impact methods; documented scope, boundaries and allocation choices.
- Prepared technical summaries, evidence logs and review notes for internal stakeholders and client discussions.

EDUCATION

- M.Sc. Sustainability Management — Riverbend University

PROFESSIONAL STRENGTHS

- Improved source-data traceability through a structured evidence register.
- Identified high-impact materials and tested practical reduction scenarios.
- Maintained model versions, assumptions, exclusions and limitations for technical review.

SYNTHETIC ANONYMIZED PROFILE — created exclusively for resume parsing, classification, ranking and edge-case testing. All names, contact details, institutions, employers and project records are fictional.
