ESG & LCA ANALYST

Diya Gill

ESG & LCA Analyst with 5 year(s) of experience supporting product and organisational sustainability assessments. Skilled in translating activity data into traceable environmental models, reviewing assumptions and communicating practical impact-reduction options.

candidate18@example.test | +91-555-010-018 | Sample City, India | Portfolio / LinkedIn: available on request
Target category: LCA **Experience:** 5 year(s) **Education:** B.E. Chemical Engineering — National Centre for Sustainable Systems

CAREER SNAPSHOT

- ESG & LCA Analyst | GreenPath Advisory
- Coordinated 10 assessment workstreams, tracking scope, milestones, review comments and client inputs.
- Collected primary activity data from engineering, procurement and operations teams; checked units, completeness and representativeness.
- Developed or reviewed life-cycle models using relevant databases and impact methods; documented scope, boundaries and allocation choices.
- Prepared technical summaries, evidence logs and review notes for internal stakeholders and client discussions.

EDUCATION

- B.E. Chemical Engineering — National Centre for Sustainable Systems

PROJECT EVIDENCE

- EPD data preparation programme
- Mapped bills of materials to PCR requirements and organised primary data requests.
- Checked units, geography, representativeness and source quality before model integration.
- Prepared traceable assumptions and evidence for technical review.

SKILLS & METHODS

- Environmental auditing
- EPD development
- PCR interpretation
- ISO 14025
- LCA report writing
- Supplier data collection
- Material flow analysis
- Excel

ADDITIONAL CONTRIBUTIONS

- Improved source-data traceability through a structured evidence register.
- Identified high-impact materials and tested practical reduction scenarios.
- Maintained model versions, assumptions, exclusions and limitations for technical review.
