PORTFOLIO / PROFILE

Kabir Khanna

Environmental Analyst

Environmental Analyst with 3 year(s) of experience supporting product and organisational sustainability assessments. Skilled in translating activity data into traceable environmental models, reviewing assumptions and communicating practical impact-reduction options.

candidate03@example.test | +91-555-010-003 | Sample City, India | Portfolio / LinkedIn: available on request
Target category: LCA **Experience:** 3 year(s) **Education:** B.E. Chemical Engineering — National Centre for Sustainable Systems

SELECTED WORK

- Manufacturing site carbon baseline
- Consolidated fuel, electricity, process and logistics data across production sites.
- Calculated emissions using documented factors and reconciled source records.
- Presented reduction opportunities covering energy, material yield and transport.

CAREER EXPERIENCE

- Environmental Analyst | CarbonScope Advisory
- Supported or delivered 9 product, process or site assessment workstreams from data request through reporting.
- Collected primary activity data from engineering, procurement and operations teams; checked units, completeness and representativeness.
- Developed or reviewed life-cycle models using relevant databases and impact methods; documented scope, boundaries and allocation choices.
- Prepared technical summaries, evidence logs and review notes for internal stakeholders and client discussions.

METHODS & TOOLS

- SimaPro
- ecoinvent
- GWP100
- CML / ReCiPe methods
- Scope 1, 2 and 3 emissions
- Sensitivity analysis
- Allocation
- Technical documentation

ACADEMIC BACKGROUND

- B.E. Chemical Engineering — National Centre for Sustainable Systems

CONTRIBUTION HIGHLIGHTS

- Improved source-data traceability through a structured evidence register.
- Identified high-impact materials and tested practical reduction scenarios.
- Maintained model versions, assumptions, exclusions and limitations for technical review.
