Target category: LCA **Experience:** 6 year(s) **Education:** M.Sc. Sustainability Management — Riverbend University

IMPACT & OUTCOMES

- Improved source-data traceability through a structured evidence register.
- Identified high-impact materials and tested practical reduction scenarios.
- Maintained model versions, assumptions, exclusions and limitations for technical review.

EXPERIENCE

- EPD Programme Associate | Earthwise Analytics
- Coordinated 12 assessment workstreams, tracking scope, milestones, review comments and client inputs.
- Collected primary activity data from engineering, procurement and operations teams; checked units, completeness and representativeness.
- Developed or reviewed life-cycle models using relevant databases and impact methods; documented scope, boundaries and allocation choices.
- Prepared technical summaries, evidence logs and review notes for internal stakeholders and client discussions.

PROJECT CASE STUDY

- Manufacturing site carbon baseline
- Consolidated fuel, electricity, process and logistics data across production sites.
- Calculated emissions using documented factors and reconciled source records.
- Presented reduction opportunities covering energy, material yield and transport.

TECHNICAL / DESIGN TOOLKIT

- SimaPro
- ecoinvent
- GWP100
- CML / ReCiPe methods
- Scope 1, 2 and 3 emissions
- Sensitivity analysis
- Allocation
- Technical documentation

EDUCATION

- M.Sc. Sustainability Management — Riverbend University
