Tanvi Malhotra

ENVIRONMENTAL DATA & UX RESEARCH INTERN

Cross-disciplinary early-career professional combining environmental assessment knowledge with user-centred digital design. Able to interpret sustainability information and shape it into clear interfaces and decision-support experiences.

PROFILE STATEMENT / CAREER DIRECTION

candidate42@example.test | +91-555-010-042 | Sample City, India | Portfolio / LinkedIn: available on request
Target category: Both **Experience:** 2 year(s) **Education:** B.Des. Product Design — Coastal School of Engineering

SELECTED WORK & EVIDENCE

• Manufacturing site carbon baseline / Personal finance onboarding flow
• Consolidated fuel, electricity, process and logistics data across production sites.
• Mapped a first-time user journey and identified confusing setup steps.
• Produced wireframes and a high-fidelity prototype with error and confirmation states.

WHAT I BRING

• Connected environmental metrics to user tasks and improved information clarity.
• Worked across research, analysis and design activities with traceable evidence.
• Presented findings concisely for reviewers from different disciplines.

CAPABILITIES

• openLCA
• Framer
• Environmental data analysis
• Responsive design
• ISO 14040/14044
• Information architecture
• Sustainability reporting
• Visualisation

EXPERIENCE

• Environmental Data & UX Research Intern | EcoProduct Studio
• Supported environmental data collection and organised product, material, energy and supplier information for review.
• Translated sustainability concepts into structured content, visual explanations and user-facing flows.
• Created wireframes or prototypes for dashboards and reporting journeys, refining labels and hierarchy through feedback.
• Documented assumptions, research findings and design decisions for technical and non-technical stakeholders.

EDUCATION

• B.Des. Product Design — Coastal School of Engineering
