PROFESSIONAL SUMMARY

B.Sc. Information Technology graduate with practical project experience in data analysis, data cleaning, data visualization and business reporting using Microsoft Excel, Power BI, SQL and Python. Skilled in Power Query, DAX, Pandas and analytical problem-solving. Developed an interactive Mobile Sales Dashboard analyzing INR 769M+ in sales, 19K+ units and 4K+ transactions. Familiar with data validation, KPI reporting, trend analysis and database operations. Seeking an entry-level Data Analyst opportunity to support e-commerce reporting, MIS operations and data-driven business decisions.

TECHNICAL SKILLS

Data Analysis: Data Cleaning, Data Validation, Data Reconciliation, Data Interpretation, Trend Analysis
Microsoft Excel: Data Filtering, Sorting, Pivot Tables, Lookup Functions, Conditional Formatting, Charts
BI & Visualization: Power BI, Power Query, DAX, KPI Dashboards, Data Visualization
Programming: Python, SQL
Python Libraries: Pandas, NumPy, Matplotlib, Plotly
Database: PostgreSQL, MySQL
Reporting: MIS Reporting, Operational Reporting, Business Performance Analysis
Tools: Microsoft Excel, Power BI, Git, GitHub, Jupyter Notebook

PROJECTS

Mobile Sales Analytics Dashboard
Technologies: Power BI, Power Query, DAX, Microsoft Excel
- Developed an interactive dashboard analyzing INR 769M+ in sales, 19K+ units and 4K+ transactions.
- Cleaned, transformed and organized sales data using Power Query.
- Created DAX measures and KPIs to monitor business performance.
- Analyzed monthly trends, city-wise sales, product performance and payment methods.
- Used interactive filters and drill-downs to support business analysis.

Advanced Fitness Tracker
Technologies: Python, Pandas, NumPy, Plotly, Streamlit
- Developed a data-driven fitness tracking application.
- Processed and analyzed fitness-related data using Python and Pandas.
- Created visualizations to present trends and performance metrics.
- Worked on data processing and interactive reporting.

DocuQuery – AI-Powered PDF Question Answering System
Technologies: Python, Django, FAISS, Sentence Transformers, PyMuPDF
- Developed a document-processing application using Python and Django.
- Implemented PDF text extraction, chunking and information retrieval.
- Worked on structured data processing, caching and debugging.

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT) | University of Mumbai | 2026 | CGPA: 7.67

CORE STRENGTHS

Analytical thinking and problem-solving • Attention to detail and data accuracy • Data interpretation and reporting • Logical reasoning and troubleshooting • Communication and team coordination • Quick learning and adaptability
